Keep your family's dreams a reality even after you're gone

You realise the need to protect your family's income after you are gone. You are concerned that they might be left financially insecure, with medical expenses and no means of income.

But you don't want to go through the cumbersome procedure of purchasing comprehensive life insurance and are looking for an alternative option, that will keep your family's dreams a reality.

About the cover

Life insurance is the financial protection your family needs against the death of a breadwinner. 1Life Limited Underwriting Pure Life Cover ensures that your family is looked after. It pays out if you pass away, providing your loved ones with the money they need to pay off all or some of the family debt, as well as cover medical bills, school fees, funeral cover and daily living expenses.

With 1Life Limited Underwriting Pure Life Cover one cash amount of up to R500 000 is paid out to your chosen beneficiaries in the event of natural or accidental death.

1Life Limited Underwriting Pure Life is what you need if you

- Are thinking of starting a family or already have a family or other people who depend on you for financial support.
- Are a single adult who would like to cover your own funeral costs or if you care financially for an elderly parent or another person.
- Have life insurance through your work. You should not rely solely on life insurance at work, e.g., group life because you could lose your job or decide to change jobs, thus losing that life insurance policy or resulting in insufficient cover.
- Already have life cover, but would like a convenient way to top up cover without going through a fully underwritten process.

We offer a **range of premium options**:

1 Premium option 1

A level-rated premium that increases each year at a fixed percentage.

2 Premium option 2

Especially for younger policy holders, an age-rated premium increase, which increases as you get older.

3 Premium option 3

Annual Contribution Increase (ACI) and Annual Benefit Increase (ABI) - It's important to make sure that your cover keeps up with the cost of living and you can ensure this by choosing to increase your cover by a small percentage each year. At 1Life we allow you to structure your premium increases and the sum assured on any new policy taken out. ACI and ABI is also available on an age-rated premium increase.

- If you select the inflation aligned option, it will allow your premium to increase by CPI (this will be based on the average inflation over the last 6 months prior to the increase) + 3% per year to keep up with inflation. This option also impacts your benefit amount (sum assured amount) as this will automatically increase by CPI, annually.
- If you select the fixed sum assured option, your premium will increase annually with 5% from month 13 onwards. Your benefit will remain flat for life.
