Your policy documents

Please read your policy book carefully so that you understand what you are paying for, especially any restrictions, waiting periods and exclusions. Check that the information on your policy schedule is correct. To make corrections or general enquiries, kindly refer to the client services contact details on the back cover.

The contract between you and your insurer consists of:

- The application for cover by telephone, through digital platforms or partners;
- Their acceptance of your risk;
- All policy schedules sent to you; and
- The policy book.

Your policy documents refer to the policyholder/owner as you/your, the product provider as your financial services provider and the underwriter or insurer as your insurer.
Life insurance jargon explained

For your peace of mind, you will find the following information in your policy book:

- an explanation of life insurance jargon;
- descriptions of your product benefits; and
- our contact details.

This policy includes consent to the sharing and processing of your personal and private underwriting and claims information in order for us to provide you with various services, benefits and cover.

The phrases defined below are standard terms used in the life insurance industry. They appear in your policy book, policy schedule and other documents your insurer may send you in the future. Each of these has a unique meaning within your contract. To ensure your full understanding of everything in context, please go through the list below before reading the rest of your documents. Please refer to the specific terms and conditions detailed in your policy schedule.
Accelerated benefit: A benefit that pays out a portion of the sum assured based on certain criteria being met. The payout of the accelerated benefits will reduce the total cover amount on the policy by the amount paid out.

Accidental death: A sudden and unforeseen event occurring at an identifiable place and time, which has a visible, violent or external cause, and results in the death of the life assured.

Aggregation of cover: The sum of life insurance benefits owned by the policyholder, across all insurers, used to determine the maximum allowed. The insurance industry uses aggregation to prevent clients from purchasing more life insurance than regulation allows.

Accidental death benefit (ADB) cover: This benefit is an insurance payout that occurs should the life assured die as a result of an accidental event.

Accidental disability: A sudden and unforeseen event occurring at an identifiable place and time, which has a visible, violent or external cause, and results in the disability of the life assured.

Annual benefit escalation: The percentage by which cover increases each year on the policy anniversary.

Annual premium escalation: The percentage by which premiums increase each year on the policy anniversary.

Beneficiary: On the death of the life assured, this is the person or institution nominated in the life insurance policy to whom the insurer pays the cover amount to.

Cancellation date: The date on which cover under the contract ends and the benefit ceases.

Commencement date: The date on which cover under the contract starts.

Contract term: The length of time the life assured will enjoy cover under the contract.

Cooling-off period: The policyholder may reconsider and/or cancel his/her contract during this period, without incurring any penalties, provided he/she has not made any claims.

Deferment period: The period of time that has to elapse, after occurrence of an event that leads to a claim, before the life assured is entitled to receive a benefit.

Disability cover: The life insurance benefit that pays out in the event of the disability of the life assured.

Dread disease cover: The life insurance benefit that pays out if the life assured is diagnosed with a life-changing disease or life-threatening event as specified by the contract.

Estate: The property, possessions and assets that belonged or are due to the life assured on the death
of the life assured from the deceased estate.

Financial services provider:
The authorised financial services provider that sells the life insurance policy to you which may also be the insurer directly.

Hazardous pursuits:
Activities (normally of a physical nature) that increase the risk of death or disability for the life assured. These activities include, but are not limited to, rock climbing, scuba diving, paragliding, hang-gliding, fighting (except for self-defence) and speed contests. The insurer may apply special conditions to the policy or exclude a benefit on application for cover or if the policyholder discloses taking up a new activity.

In force: The policy benefits have not expired or been cancelled; premiums are being paid and are up to date.

Insurable interest: A person has an insurable interest in the life of the life assured if the death, disability or illness of the life assured would result in financial loss for that person. This means that there needs to be a recognised relationship between the policyholder/owner and the life assured at time of commencement of the policy. Life insurers consider everyone to have an insurable interest in their own lives as well as the lives of their spouse and dependants. Where no insurable interest exists, the applicable benefits will be void from the commencement date.

Insurer: The underwriter of your life insurance policy.

Life assured: The person who would experience the insured events described in this policy book.

Life cover: The life insurance benefit that pays out in the event of the death of the life assured.

Material information: Information provided by the life assured to enable the insurer to accurately assess and to determine acceptance or declinature of the risk.

Natural death: Death that occurs from natural causes such as disease or old age, rather than from an act of violence or injury.

Policy anniversary: The date one year from the commencement/cover start date, and every year thereafter for the life of the policy.

Policyholder/owner: The person or institution who owns the policy. Usually this is the life assured, however you may own a policy that names someone else as the insured, however in order to be an owner on a policy, clear insurable interest needs to be established. The policyholder/owner needs to ensure that the premiums are received even though there may be a different person paying these premiums.

Premium guarantee period: The length of time for which the insurer guarantees premiums not to change, other than through compulsory annual premium escalations.
**Premium payment term:** The length of time for which premiums are payable for cover.

**Stand-alone benefit:** If a claim pays out under a stand-alone benefit, this will not reduce the cover amount under any other benefit on the policy.

**Sum assured:** The amount of cover that the life assured applied for with the insurer. The cover amount for a level sum assured product remains the same for the life of the policy; for an escalating or increasing sum assured it increases on every policy anniversary; and for a decreasing sum assured, it reduces gradually.

**Terminal illness cover:** The life insurance benefit that pays out the full life cover amount to the life assured, while they are still alive and in the event of their doctor’s and the insurer’s chief medical officer’s (CMO) opinion that the life assured suffers a terminal illness with a life expectancy under a certain time frame, as defined by the life insurer.

- Financial underwriting measures the potential financial loss to the insurer to determine the proposed sum assured and product they can accept.
- Medical underwriting measures the health status of the life assured to determine whether to offer or deny cover and at what premium.

**Underwriting:** The process during which the insurer determines the level of cover it is prepared to offer, taking into consideration various financial limits based on age, gender, education, occupation, income, current life insurance cover, avocation, personal health status, family health history and insurable interest.

**Waiting period:** The period during which time a claim cannot be made on the policy and premiums are payable to the insurer.

**Whole of life:** A life insurance benefit that provides cover throughout the entire lifetime of the life assured.
General terms and conditions

Contract of insurance
In return for your payment and the receipt and acceptance of your premium, your insurer will provide insurance cover according to the terms of your policy during the period shown in your policy schedule. Your policy schedule highlights the specifics of your insurance cover, and the terms and details therein are very important. Please check this document carefully and let your insurer know should you have any concerns, questions or queries by contacting Client Services (contact details on the back cover).

Contract duration
Cover under this contract begins on the commencement date, as reflected in your policy schedule, provided that the first premium has been received. The contract remains in force until the end of the benefit term as stated in your policy schedule or until cancelled.

Payments
Premiums are payable monthly in advance by debit order and are payable for as long as the Premium payment term section of your policy schedule states. If the premium payment term is whole of life, premiums will be payable until the death of the life assured. If the sum assured for certain benefits cease or if the full sum assured has already been paid out for a benefit, no further premiums will be payable for those specific benefits. Your policy includes a period of grace, provided that the first premium payment has been received. If a payment is not received within 31 days of the normal deduction date, your cover will be suspended immediately, while we endeavour to keep you covered by attempting to collect arrear premium/s. We will inform you in writing and via SMS should your premium go as unpaid as well as inform you of the process to recover your outstanding premium/s.

We encourage you to have the money available in your account as soon as possible to allow us to recover your outstanding premium/s through a variable deduction date premium recovery process to ensure your valuable cover remains in force. The variable deduction date premium recovery process means that we will process your outstanding month’s premium/s in the month following non-payment as soon as you have the funds available in your account. Should we still fail to receive payment, the policy may be cancelled. Premiums already paid to date will not be refunded.

Annual premium escalation and premium guarantee period
A premium escalation, benefit escalation (if selected) and premium guarantee period may be applicable depending on the cover type or product chosen.
General terms and conditions

Please refer to your policy schedule for the annual premium escalation, benefit escalation (if selected) and premium guarantee period.

Review
The policy and premiums may be reviewed on an ongoing basis to ensure that they remain actuarially sound. Should the policy or premium be reviewed, you will be provided with the outcome of such review in writing at least 31 days before any such review takes effect.

Reinstatement
Should your contract no longer be in force, your insurer may reinstate your contract at your request. Your insurer reserves the right to review and underwrite the policy terms and conditions on reinstatement and assess whether to reinstate the cover. The new terms and conditions will be set out in your policy book and policy schedule.

Governing law and currency
All benefit amounts specified in your contract are in the currency of the Republic of South Africa. All amounts payable to or by your insurer will be in South African Rand. South African law will govern this contract. Your insurer may change the contractual terms of your policy if any laws or legislation affecting your type of life insurance change.

Underwriting
Your policy may be referred to an underwriter or quality assurer to assess whether to issue the policy and at what premium rate. To qualify for certain cover types, the life assured may be required to go for an HIV test. After completing all underwriting, your insurer will confirm with the policyholder/owner whether cover is accepted, accepted on revised terms, or declined.

Cancellation
If you decide to cancel your policy, you are requested to notify your insurer telephonically or in writing. Your insurer will stop your cover once they have received your cancellation request or you have stopped the premium payment. The contract will terminate and your insurer will not be liable for any benefits after the cancellation date.

Your insurer will cancel the contract if:
• the benefit term expires;
• if you fail to provide true and complete information, in the instance of fraud, material misrepresentation, or non-disclosure;
• you fail to pay your premium 3 (three) times in the life of the policy.
• they fully discharge all their contractual obligations;
• At the end of the premium waiver period, if applicable; or
• the life assured dies.

During the cooling-off period
You may cancel your policy during the cooling off period, a 31 (thirty-one) day period from the date when the policy was...
General terms and conditions

Issued or varied. If you cancel your policy within the cooling-off period, your insurer will refund the premiums you have paid, after deducting any costs specifically charged to provide cover for the period. The cooling-off period only applies if your insurer has not paid out any benefits.

After the cooling-off period
Should you cancel your policy at any time other than during the cooling-off period, your insurer will not refund the premiums already paid to them, as you would have already enjoyed cover.

Claims
Call the Claims Department (contact details on the back cover) to inform your insurer of any events that may or may not give rise to a claim, such as a death, disability or dread disease. When you call, they will ask you or your beneficiary a series of questions, including details of the full circumstances surrounding the incident. Most details can be gathered telephonically.

Any prior amendments requested on the policy may have an effect on claims depending on the effective date of change. Contractual/underwritten changes such as change in cover amount or amendment to benefits take effect on the first day of the following month. However, non-underwritten changes such as update of contact information or amendments to beneficiaries are immediate. Certain documents will be required from you to confirm the details of the claim. Your insurer will not assess a claim until they receive all the necessary information. Your insurer only accepts original or certified copies of documents. Your insurer will inform you of how the documents can be supplied to them.

Your insurer will only accept a claim if:
• the definitions and requirements of the insured event have been met;
• they rule that the claim is valid;
• they have received and accepted all the information required;
• the premiums for the policy have been paid in full; and
• the cover has not been cancelled.

All claims are assessed in South Africa only.

Should a nominated beneficiary be a minor at the time of your death, benefits payable to such beneficiary will only be made into a registered trust or the Guardian’s Fund.

Important claims time limits
Your insurer must be notified of an event that may result in a claim for a death benefit within 6 (six) months of its occurrence.

An event that may result in a claim on a disability or dread disease benefit must be reported to them within 3 (three) months of its occurrence.
General terms and conditions

Initial claim documentation must be sent to your insurer within 3 (three) months of you notifying your insurer of the claim event.

Any additional documents required in order to process the claim need to be forwarded to your insurer within 3 (three) months.

Your insurer may reject a claim if they do not receive notification within the prescribed period.

Disputed claims
Your insurer will notify you within a reasonable period after receipt of the claim, advising you whether the claim is accepted or rejected, or informing you whether the amount claimed is in dispute.

The notice will contain the reasons for the dispute or rejection.

You are granted 90 (ninety) days to make representations to your insurer about their decision on the claim. Representations must be made in writing. Should your insurer confirm their decision to reject or dispute the claim amount, you can either refer your complaint to the Ombudsman for Long-term Insurance or institute legal proceedings against your insurer within 6 (six) months from receipt of their confirmation.

Your insurer will calculate all benefits paid on valid claims in relation to total premiums paid to them.

Interest payable
No interest will be accrued or be payable on any payments related to premium refunds, ex gratia payments or claim payments due.

Continuity of cover
Your insurer may review and, where necessary, make changes to the policy terms and conditions, benefit amounts and/or premiums payable or cancel certain benefits if there is a change in one or more of the following:

- **Smoking status**: If the life assured starts or recommences smoking at any stage during the contract period, your insurer requires notification of this change, please contact them on the number supplied on the back inside cover. In the event of a change notified, your insurer reserves the right to adjust the sum assured or premium as necessary. Failure to inform them of starting or recommencing smoking will result in the benefit being reassessed at the claims stage, in line with the relevant underwriting practice at that time. This calculation will assume that the life assured was a smoker from the commencement date.

Your insurer will calculate all benefits payable to an amount in keeping with the actual premiums paid to date.
General terms and conditions

- **Country of residence:** In order to take out life insurance, a policyholder must be a citizen of South Africa. Citizens from selected countries, as determined by underwriting, may be granted cover, however they have to have resided in South Africa for more than 12 months, must own property in South Africa and have a South African bank account.

- **Foreign travel:** The **life assured** must inform your insurer in writing of any travel outside the borders of South Africa. The Underwriting Department will advise whether the client will enjoy cover in the applicable country or whether they will exclude cover for that country.

- **Primary occupation:** Your insurer excludes certain occupations from cover for disability. Certain occupations also put you at a greater risk of death. If they grant cover and the **life assured** changes his/her occupation, your insurer requires notification of this change within three (3) months. If the new occupation falls into an excluded category, they may not be able to continue the disability cover. Failure to inform them of such a change will result in the benefit being reassessed at the claims stage, in line with the relevant underwriting practice at that time. Your insurer may reduce benefits payable to an amount in keeping with the actual premiums paid to date or reject the claim and you will forfeit premiums. This calculation will assume that the **life assured** was in his/her changed occupation from the **commencement date**. Where the **life assured** has more than one occupation, the one with the highest risk will be captured.

- **Hazardous pursuits:** If the **life assured** starts or alters participation in a hazardous pursuit at any stage during the contract period, your insurer requires notification of this change. In the event of a change notified, they reserve the right to adjust the **sum assured** or premium as necessary and to advise the **policyholder/owner** of any additional premiums or exclusion(s) added to the policy. Failure to inform them of such changes will result in their reassessing the benefit at claims stage, in line with the relevant underwriting practice at that time. Your insurer may reduce benefits payable to an amount in keeping with the actual premiums paid to date or reject the claim and you will forfeit the premiums. This calculation will assume that the **life assured** was participating in the hazardous pursuit(s) to this extent from the **commencement date**.
General terms and conditions

True and complete information, material misrepresentation, or non-disclosure

Your insurer can only assess and accept a risk if you supply them with complete and truthful answers before the policy commencement date or effective date of change. If they find that information provided to them was incorrect or certain details were withheld, either at application stage or at a time when changes were made to the policy, and this information is material to the assessment of the risk, they may repudiate your claim, repudiate future claims or cancel the policy. In such a case, your insurer will not refund the premiums already paid to them and they may recover monies already paid to you for claims that relate to the misrepresentation or non-disclosure.

Material information

Information is material if a reasonable person would consider that the particular information should have been correctly disclosed to your insurer by the life assured. This is so that they can determine the impact of that information in assessing the relevant risk.

The policyholder/owner must supply this kind of information such as health, smoking status, occupation etc., when any changes are made to the policy; or when any changes must be notified to your insurer. Your insurer will use it to determine whether to accept the risk, any special conditions that may be applied, and whether there is a need for extra evaluations before confirmation of your cover. This could include, but may not be limited to, the life assured’s/owner’s medical history, smoking status, lifestyle, hazardous pursuits, occupation, income, and any existing life assurance policies for the life assured.

Duty of disclosure

You must fulfil your duty of disclosure by making a fair presentation of the risk proposed for insurance. The duty of disclosure should be sufficient to draw your insurer’s attention in such a way that they can decide whether they require further information before taking up the cover.

Fraudulent or deliberate acts

Your insurer can cancel the policy and/or not admit a claim if:

• any representation or claim under this policy is in any respect fraudulent, dishonest or untruthful;
• it is found that fraudulent means or false information was used to benefit from the cover granted;
• you knowingly allow anyone acting on your behalf to provide false information to obtain a benefit; or
• you deliberately and wilfully act or cause to act, aggravate or accelerate the death, illness or disability that gives rise to a claim.
General terms and conditions

Your insurer will make no refunds for premiums already paid and may initiate legal proceedings against the defrauding party.

Examples in this policy book
Examples are provided for illustrative purposes and DO NOT form part of the contract. The terms and conditions of the contract and the details of the policy schedule determine any entitlement to benefits.

Language
Your insurer communicates with its clients in English over the telephone and in writing. All explanations and communication conducted in another language are merely for the client’s convenience and to aid understanding.

Should any discrepancy arise in interpretation and/or understanding, the English version of the policy documents will take precedence.
YOUR PRODUCT

Pure Life
Cover
Pure Life Cover

Depending on the level of cover chosen, the following benefits and conditions will apply:

**Benefit:** This product pays out the sum assured in the event of the death of the **life assured**. The amount that will be paid out is stated on your policy schedule and is subject to all the conditions of this contract being met.

**Expiry of cover:** Your life cover is a whole of life cover; cover will cease in the event of the death of the **life assured**, however the policy will automatically expire if it becomes invalid for any other reason.

**Waiting period:** The waiting period will be as set out in your policy schedule. During this period, only accidental death claims will be admitted.

**HIV testing:** Your insurer may require a new negative HIV test on the **life assured** to be submitted, as specified in your policy schedule or amendment schedule. HIV testing may be required within a specified time frame from date of commencement, policy upgrade and/or reinstatement of cover. Should this not be supplied within the required period or the test result is reactive, the **life assured** will automatically be covered for **accidental death** and accidental disability (if applicable) only. Dread disease cover (if applicable) and Terminal Illness benefit will fall away and premiums may be adjusted accordingly. Should the HIV test result be received after the required date, underwriting may be required to review any benefits on the policy.

**Additional benefits**

Depending on your policy, one or more of these benefits may be added to your contract. Please refer to your policy schedule for confirmation of the benefits that have been included.

- **Terminal illness cover:** If the **life assured** is diagnosed with a terminal illness and your insurer’s medical officer confirms a life expectancy of no more than 12 (twelve) months, payment of the sum assured will be made. Thereafter, all benefits under this product will cease.

This cover will not be applicable if the waiting period has not yet expired.

- **Pay-now accelerated death benefit:** An accelerated death benefit is available for funeral and other related expenses in the event of the death of the **life assured**. Your insurer pays the benefit from the life cover sum assured to the nominated beneficiary on the policy, who is responsible for the cost of the funeral. The balance of the claim will be assessed and settled thereafter, provided the terms and conditions are met. Should a beneficiary not be nominated on the policy or if the beneficiary/beneficiaries are minors at the time of claim, the
Pure Life Cover

Pay-now accelerated death benefit will not apply and the full sum assured will be paid to the estate or relevant registered trust upon finalisation of the claim, provided all the terms and conditions are met.

The benefit is only available after six (6) months for death due to accidental causes and after twelve (12) months for death due to natural causes, from commencement or reinstatement effective date of cover provided the first premium was received.

- **Premium waiver**: If applicable to the product chosen, if the life assured becomes disabled and is paid a 100% lump sum disability benefit, the premiums for pure life cover and dread disease cover (if applicable) will not be charged for a period of 5 (five) years. Policy premium collection re-commence and is payable again when the premium waiver period has expired. After this period, normal cancellation rules will apply as stated above.

- **Guaranteed assurability**: If applicable to the product chosen, the life cover sum assured on the policy may be increased by a percentage of the original sum assured, up to a maximum allowed or up to your insurer’s maximum insurable amount at the time, whichever is lower. This is without the need for any further underwriting, other than providing a new negative HIV test for the life assured. Such an option may only be exercised on every third policy anniversary or after a significant event, as described below:
  - the marriage of the life assured;
  - a child being born to or legally adopted by the life assured;
  - the life assured purchasing a home; and/or
  - the life assured entering into a business or taking an increased interest in an existing business.

If cover is increased after any of the above events, the sum assured will remain the same for a period of three years and further guaranteed assurability increases will only be allowed after this period, as stated in the policy schedule.

**You may only use this benefit if you:**
- have not claimed and are not in the process of claiming;
- are not aware of any condition present and have not suffered any event that would entitle you to claim under a policy;
- request the increase within 3 (three) months of the date of the significant event or third policy anniversary; and
- are younger than the maximum entry age for this benefit.

Your insurer may need further information about the significant events described.
Pure Life Cover

above when you request the cover increase. Financial underwriting may also be required.

Your insurer will base the premium for the increased cover on current premium rates and conditions applicable at the time of the increase.

**General exclusions**
Your insurer will have no liability whatsoever under the policy where any claim arises from, or is the result of the:

• death of the **life assured**, being, in the supplier’s opinion, as a result of the client’s own act, within 2 (two) years or 24 (twenty-four) months from the **commencement date** of the policy or the effective date of the cover, as stated in the policy schedule. If the sum assured is increased, a new 2 year (two year) period will apply to the increased portion, effective from the date of increase;

• **policyholder/owner/life assured/beneficiary/premium payer** deriving or standing to derive any financial benefit or gain from the contravention of any law (including, but not limited to fraudulent activities);

• participation by the **life assured** in any criminal activity;

• the **life assured** wilfully and materially breaking any law; or the claim event having been accelerated by the **life assured** materially breaking any law; or

• excessive consumption of alcohol; intentional inhalation of fumes; or intentional and negligent consumption of poisons, drugs, narcotics or medication (unless prescribed by an independent medical practitioner and used according to these instructions) **by the life assured**.

In the event of such a claim, the policyholder/owner will forfeit all benefits afforded in terms of this policy and all premiums paid in respect of this policy, and your insurer may void or cancel this policy as from the **commencement date**, at its discretion.

**Specific exclusions**
Your insurer will not pay a claim if the death of the **life assured** was, in their opinion, related directly or indirectly to any one of the events or conditions listed in the policy schedule under the **Specific exclusions section**.
YOUR PRODUCT

Accidental Death Benefit (ADB) Cover
Accidental Death Benefit (ADB) Cover

Depending on the level of cover chosen, the following benefit and conditions will apply:

**Benefit:** This product pays out a lump sum in the event the **life assured** dies as a result of accidental causes, but not for death due to natural causes. The accident and death of the **life assured** must occur after the commencement date and/or reinstatement effective date of cover. Death as a result of your own act will be excluded. The amount that will be paid out as stated in your policy schedule and is subject to all the conditions of this contract being met.

**Waiting period:** There is no waiting period applicable to this cover.

**Additional benefits**
Depending on your policy, one or more of these benefits may be added to your contract. Please refer to your policy schedule for confirmation of the benefits that have been included.

- **Pay-now accelerated death benefit:** An accelerated death benefit is available for funeral and other related expenses in the event of the accidental death of the **life assured**. This benefit is only available after six (6) months after commencement or effective date of reinstatement of cover provided the first premium was paid. Your insurer pays this benefit from the accidental death benefit (ADB) cover sum assured to the nominated beneficiary on the policy, who is responsible for the cost of the funeral. The balance of the claim will be assessed and settled thereafter, provided the terms and conditions are met. Should a beneficiary not be nominated on the policy or if the beneficiary/beneficiaries are minors at the time of claim, the pay-now accelerated death benefit will not apply and the full sum assured, will be paid to the estate or relevant registered trust upon finalisation of the claim, provided all the terms and conditions are met.

- **Premium waiver:** If the life assured becomes disabled and is paid a 100% lump sum disability benefit, the premium for accidental death benefit (ADB) and
Accidental Death Benefit (ADB) Cover

dread disease cover (if applicable) will not be charged for a period of five (5) years. Policy premium collection re-commence and is payable again when the premium waiver period has expired. Any premium increases will be applicable during this period.

• **Guaranteed assurability:** If applicable to the product chosen, the accidental death benefit (ADB) cover sum assured on the policy may be increased by a percentage of the original sum assured, up to a maximum allowed or up to your insurer’s maximum insurable amount at the time, whichever is lower. This is without the need for any further underwriting for the **life assured**. Such an option may only be exercised on every third **policy anniversary** or after a significant event, as described below:
  • the marriage of the **life assured**;
  • a child being born to or legally adopted by the **life assured**;
  • the **life assured** purchasing a home; and/or
  • the **life assured** entering into a business or taking an increased interest in an existing business.

If cover is increased after any of the above events, the sum assured will remain the same for a period of three years and further guaranteed assurability increases will only be allowed after this period, as stated in the policy schedule.

You may only use this benefit if you:
• have not claimed and are not in the process of claiming;
• are not aware of any condition present and have not suffered any event that would entitle you to claim under a policy;
• request the increase within 3 (three) months of the date of the significant event or third **policy anniversary**; and
• are younger than the maximum entry age for this benefit.

Your insurer may need further information about the significant events described above when you request the cover increase. Financial underwriting may also be required.
Your insurer will base the premium for the increased cover on current premium rates and conditions applicable at the time of the increase.

**General exclusions**
Your insurer will have no liability whatsoever under the policy where any claim arises from, or is the result of the:
• death of the **life assured**, being, in the supplier’s opinion, as a result of the client’s own act from the commencement date of the policy or the effective reinstatement date of the cover, as stated in the policy schedule;
• **policyholder/owner/life assured/beneficiary/...**
Accidental Death Benefit (ADB) Cover

premium payer deriving or standing to derive any financial benefit or gain from the contravention of any law (including, but not limited to fraudulent activities);
- participation by the life assured in any criminal activity;
- the life assured wilfully and materially breaking any law; or the claim event having been accelerated by the life assured materially breaking any law; or
- excessive consumption of alcohol; intentional inhalation of fumes; or intentional and negligent consumption of poisons, drugs, narcotics or medication (unless prescribed by an independent medical practitioner and used according to these instructions) by the life assured.

In the event of such a claim, the policyholder/owner will forfeit all benefits afforded in terms of this policy and all premiums paid in respect of this policy, and your insurer may void or cancel this policy as from the commencement date, at its discretion.

Specific exclusions
Your insurer will not pay a claim if the death of the life assured was, in their opinion, related directly or indirectly to any one of the events or conditions listed in the policy schedule under the Specific exclusions section.
YOUR PRODUCT

1Life Wills and Estate Plan
1Life Wills and Estate Plan

Depending on the level of cover chosen, the following benefits and conditions will apply:

**Benefit**: This product pays out a lump sum in the event of the death of the life assured to cover estate duty and other associated costs. The amount that will be paid out is stated on your policy schedule and is dependent on the type of cover in force (Pure Life cover or Accidental death benefit (ADB) cover) and is subject to all the conditions of this contract being met.

**Pure Life cover**: This product pays out a lump sum in the event of the death of the life assured. The amount that will be paid out is stated on your policy schedule and is subject to all the conditions of this contract being met.

**HIV testing**: Your insurer requires a new negative HIV test on the life assured to be submitted, as specified in your policy schedule or amendment schedule. HIV test may be required within a specified time frame from date of commencement, policy upgrade and/or reinstatement of cover. Should this not be supplied within the required period or the test result is reactive, the life assured will automatically be covered for accidental death only and premiums may be adjusted accordingly. Should the HIV test result be received after the required date, underwriting may be required to review any benefits on the policy.

**Accidental death benefit (ADB) cover**: This product pays out a lump sum in the event that the life assured dies as a result of accidental causes, but not for death due to natural causes. The accident and death of the life assured must occur after the commencement date and/or reinstatement effective date of cover. Death as result of your own act will be excluded. The amount that will be paid out is stated in your policy schedule and is subject to all the conditions of this contract being met.

**Expiry of cover**: Your cover is a whole of life cover; cover will cease in the event of the death of the life assured, however the policy will automatically expire if it becomes invalid for any other reason.

**Additional benefits**

Depending on your policy, one or more of these benefits may be added to your contract. Please refer to your policy schedule for confirmation of the benefits that have been included.

- **Liquidity benefit**: An additional death benefit is available for funeral and other related expenses in the event of the death of the life assured. Your insurer pays the liquidity benefit to the nominated beneficiary on the policy, who is responsible for the cost of the funeral. The balance of the claim will be assessed and settled thereafter, provided the terms and conditions are met. Should a beneficiary not be nominated on the
1Life Wills and Estate Plan

policy or if the beneficiary/beneficiaries are minors at the time of claim, the liquidity benefit will not apply and the benefit will be paid to the estate or relevant registered trust upon finalisation of the claim, provided all the terms and conditions are met.

The liquidity benefit is only available after six (6) months for death due to accidental causes and after twelve (12) months for death due to natural causes, from commencement or reinstatement effective date of cover.

If the life assured is only covered for accidental death, then the liquidity benefit will only be paid out in the event of death due to accidental causes, and the above waiting period will still apply.

- **Income benefit:** This product pays out 6 (six) monthly payments equivalent to your last recorded monthly salary on your policy, in order to assist your loved ones while your estate is being wound up. This benefit will be paid to your nominated major beneficiary on your policy. Should a beneficiary not be nominated on the policy the income benefit will be paid to the estate. If the beneficiary is a minor at the time of claiming, the income benefit will be paid to the estate or relevant registered trust or the Guardian’s Fund upon finalisation of the claim, provided all the terms and conditions are met.

The benefit is dependent and payable on your underlying life cover type i.e. Pure Life cover or Accidental death benefit (ADB) cover. In the event that the cause of death is not covered under your life cover benefit, the income benefit will not be payable.

Your income recorded may be validated as part of the claims assessment process.

**General exclusions**
Your insurer will have no liability whatsoever under the policy where any claim arises from, or is the result of the:

- **Death of the life assured,** being, in the supplier’s opinion, as a result of the client’s own act, within 2 (two) years or 24 (twenty-four) months from the commencement date of the policy or the effective date of the cover, as stated in the policy schedule. If the sum assured is increased a new 2 year (two year) period will apply to the increased portion effective from the date of increase.

- **Policyholder/owner/life assured/beneficiary/premium payer** deriving or standing to derive any financial benefit or gain from the contravention
Life Wills and Estate Plan

of any law (including, but not limited to fraudulent activities);
• Participation by the life assured in any criminal activity;
• The life assured wilfully and materially breaking any law; or the claim event having been accelerated by the life assured materially breaking any law; or
• Excessive consumption of alcohol; intentional inhalation of fumes; or intentional and negligent consumption of poisons, drugs, narcotics or medication (unless prescribed by an independent medical practitioner and used according to these instructions) by the life assured.

In the event of such a claim, the policyholder/owner will forfeit all benefits afforded in terms of this policy and all premiums paid in respect of this policy, and your insurer may void or cancel this policy as from the commencement date, at its discretion.

Specific exclusions
Your insurer will not pay a claim if the death of the life assured was, in their opinion, related directly or indirectly to any one of the events or conditions listed in the policy schedule under the Specific exclusions section.
YOUR PRODUCT

Disability Cover
Disability Cover

Occupation-based disability cover

**Benefit:** This product pays out a lump sum if the **life assured** becomes disabled and:
- is totally and permanently unable to perform the normal tasks required by his/her normal occupation; and
- cannot do any other work that he/she would be able to do, given his or her education, knowledge, training or experience.

The maximum benefit amount, as stated on the policy schedule, will remain the same until 5 (five) years before the **life assured** turns 65 (sixty-five) or reaches his/her selected retirement age, whichever is earlier. Thereafter, the maximum benefit will be divided by 5 and your policy will be decreased annually by this amount. No increases in cover can be made at this time.

The table below illustrates the above adjustment on a sum assured of R100 000 with a retirement age of 65 (sixty-five):

Disability Cover

Event-based disability cover

**Benefit:** This product pays a percentage of the sum assured for disability according to the criteria as described in the tables below. Any claim paid out reduces the amount available for future claim events. Once a cumulative amount of 100% (one hundred percent) of the total **sum assured** (stated in the policy schedule) has been paid out, no further payouts for this benefit will be considered and cover will cease.

Accidental Event-based disability cover

**Benefit:** This product pays a percentage of the sum assured for accidental disability only according to the criteria as described in the tables below. Any claim paid out reduces the amount available for future claim events. Once a cumulative amount of 100% (one hundred percent) of the total sum assured (stated in the policy schedule) has been paid out, no further payouts for this benefit will be considered and cover will cease.

Disability Cover

Example
A client selects a R250 000 sum assured disability policy for event-based disability. In an accident, the client loses 1 (one) limb. A 50% payout is made and the client receives R125 000. For any future claims, the remaining R125 000 is available for either a 50% or 100% payout per claim event.

HIV testing: If indicated in your policy schedule, your insurer requires a new negative HIV test on the life assured, to be submitted, as specified in your policy schedule or amendment schedule. HIV testing may be required within a specified time frame from commencement, policy upgrade and/or reinstatement of cover. Should this not be supplied within the required period or the test result is reactive, the life assured will automatically be covered for accidental disability only and premiums will be adjusted accordingly. Should the HIV test result be received after the required date, underwriting may be required to review any benefits on the policy.

Additional benefits
Depending on your policy, one or more of these benefits may be added to your contract. Please refer to your policy schedule for confirmation of the benefits that have been included.

• Premium waiver: If the life assured becomes disabled and is paid a 100% lump sum disability benefit, the premiums for life cover and dread disease (if applicable) will not be charged for a period of five (5) years. Policy premium collection will re-commence and is payable when the premium waiver period has expired.

• Guaranteed assurability: If applicable to the product chosen, the cover sum assured on the policy may be increased by a percentage of the original sum assured, up to a maximum allowed or up to your insurer’s maximum insurable amount at the time, whichever is lower. This is without the need for any further underwriting, other than providing a new negative HIV test (if required) for the life assured. Such an option may only be exercised on every third policy anniversary or after a significant event, as described below:
  • The marriage of the life assured;
  • A child being born to or legally adopted by the life assured;
  • The life assured purchasing a home; and/or
  • The life assured entering...
Disability Cover

into a business or taking an increased interest in an existing business.

If cover is increased after any of the above events, the sum assured will remain the same for a period of three years and further guaranteed assurability increases will only be allowed after this period, as stated in the policy schedule.

You may only use this benefit if you:
• request the increase within 3 (three) months of the date of the significant event or third policy anniversary;
• Are younger than the maximum entry age for this benefit;
• Have not claimed and are not in the process of claiming; and
• Are not aware of any condition present and have not suffered any event that would entitle you to claim under the policy.

Your insurer may need further information about the significant events described above when you request the cover increase. Financial underwriting may also be required.

Your insurer will base the premium for the increased cover on current premium rates and conditions applicable at the time of the increase.

General exclusions
Neither claims for disability nor the premium waiver benefit will be paid if the condition of the life assured is caused or accelerated, whether directly or indirectly, by:
• Participation in war and/or acts of war, whether war be declared or not;
• Participation in civil commotion, insurrection, riot, usurpation of power, terrorism or acts of terrorism;
• Participation in any criminal activity;
• Radioactivity and nuclear explosions;
• Failure to obtain and/or follow reasonable medical advice;
• The life assured wilfully and materially breaking any law, or the claim event having been accelerated by the life assured materially breaking any law; or
• Material misrepresentation or non-disclosure of information before the commencement date;
• Self-inflicted injury or illness;
• Excessive consumption of alcohol; intentional inhalation of fumes; and intentional and negligent consumption of poisons, drugs, narcotics or medication (unless prescribed by an independent medical practitioner and used according to these instructions); or
• Participation in any hazardous sport or pursuit, unless notified to your insurer and accepted for cover (with or without an increase in premium).
Disability Cover

Specific exclusions
Your insurer will not pay the disability claim or the premium waiver benefit if the condition of the life assured is caused or accelerated, whether directly or indirectly, by any one of the events listed in the policy schedule under the Specific exclusions section.
YOUR PRODUCT

Expense Protector
Expense Protector

Expense Protector pays out if the life assured does not receive their regular income due to incapacitation as a result of either illness or injury. Expense protector can be purchased on its own, or as part of a life insurance policy and provides two types of cover.

**Occupation-based expense protector:** this product pays out a monthly income as indicated in the policy schedule, if the life assured suffers a loss of income due to an inability to perform any of the occupational duties that they have been trained to perform, due to injury or illness.

**Event-based expense protector:** this product pays out a monthly income as indicated in the policy schedule, if the life assured becomes impaired due to accidental or natural causes; and

- That impairment results in the life assured being unable to perform their own or suited occupations; or
- The impairment results in 100% of the sum assured being paid out as per the definitions contained in the ensuing tables.

**Benefit escalation**

Expense protector includes an optional benefit escalation which provides the policyholder with the option to increase the benefit pay-out by 5% on the anniversary of the policy, as well as when a claim is made.

**Terms and conditions**

- The payout is limited to 75% of the life assured’s gross monthly salary or R100 000 whichever is lower.
- The life assured must inform the insurer if there is any change in occupation, within three (3) months of the said change.
- The premium will not be waived during a claim.
- Payment will continue until either:
  - The insurer deems the life assured:
    - Able to carry out a substantial portion of his/her occupational duties; or
    - No longer suffers an income reduction that is solely attributable to the illness, injury, disease or surgical procedure that gave rise to the claim.
  - The life assured reaches the age of sixty-five (65).
  - The life assured’s death.
- Claim payments will cease if:
  - The life assured refuses to undergo any physical examinations or tests required by the insurer in order to ascertain the continued validity of the claim;
  - The life assured does not provide satisfactory evidence of continued disability when requested to do so by the insurer;
  - There has been a material change in the life assured’s health, income or occupation which affects the continued validity of a claim; or
Expense Protector

° The **life assured** declines to undergo medical treatment recommended by his/her own medical practitioner or the insurer’s Chief Medical Officer which could reasonably be expected to undergo and which could substantially improve or remove the condition being claimed for.

° Engages in his/her own occupation with reduced remuneration or duties; or

° Is considered by the insurer to be capable of engaging in his/her own occupation.

• The **life assured's** benefit amount will be reduced accordingly if, after a claim has been admitted, the life assured:

**Expiry of cover:** Cover expires when the **life assured** turns 65 (sixty-five) or reaches his/her selected retirement age, whichever is earlier.

**Annual benefit escalation:** An annual benefit escalation may be applicable, depending on the type of cover or product chosen. Please refer to your policy schedule for the annual benefit escalation and revision details applicable to your specific cover package.
Expense Protector

Waiting period: You will not be entitled to claim under this benefit for the duration of the period indicated in your policy schedule from the date of commencement of this contract.

Deferment period: The life assured will receive the monthly benefit only after the deferment period indicated in the policy schedule from the date of the claim event.

HIV testing: Your insurer requires a new negative HIV test on the life assured to be submitted, as specified in your policy schedule or amendment schedule. HIV testing may be required within a specified time frame from commencement, policy upgrade and/or reinstatement of cover. Should this not be supplied within the required period or the test result is reactive, the life assured will automatically be covered for accidental disability only and premiums may be adjusted accordingly. Should the HIV test result be received after the required date, underwriting may be required to review any benefits on the policy.

Earnings

On disability, previous earnings will mean the average monthly earnings during the 12 (twelve) months prior to incapacity of the life assured from his/her nominated occupation, together with any pension fund contributions. Earnings will mean nett after tax earnings, and will only include amounts earned in respect of work actually done by the life assured in his/her nominated occupation during this period.

General exclusions

Neither claims for disability nor the premium waiver benefit will be paid if the condition of the life assured is caused or accelerated, whether it be directly or indirectly, by:

- Participation in war and/or acts of war, whether war be declared or not;
- Participation in civil commotion, insurrection, riot, usurpation of power, terrorism or acts of terrorism;
- Participation in any criminal activity;
- Radioactivity and nuclear explosions;
- Failure to obtain and/or follow reasonable medical advice;
- The life assured wilfully and materially breaking any law; or the claim event having been accelerated by the life assured materially breaking any law; or
- Material misrepresentation or non-disclosure of information before the commencement date;
- Self-inflicted injury or illness;
- The excessive consumption of alcohol; intentional inhalation of fumes; and intentional and negligent consumption of poisons, drugs, narcotics or medication (unless prescribed by an independent medical practitioner and used according to the instructions);
Expense Protector

- Participation in any hazardous sport or pursuit, unless notified to your insurer and accepted for cover (with or without an increase in premium);
- Claims where the disability arose directly or indirectly as a result of elective surgery, other than medical procedures needed due to an injury or illness that occurred after the commencement date; or
- Claims where the claimant refuses medical treatment recommended by his/her medical practitioner or the insurer’s chief medical officer (CMO), which he/she could reasonably be expected to undergo and which could substantially improve or remove the condition being claimed for.

**Specific exclusions**

Your insurer will not pay the disability claim or the premium waiver benefit if the condition of the **life assured** is caused or accelerated, whether directly or indirectly, by any one of the events listed in the policy schedule under **Specific Exclusions**.
YOUR PRODUCT

Dread Disease Cover
Dread Disease Cover

**Benefit:** This product pays a percentage of the sum assured if the life assured suffers a dread disease, according to the criteria described in the tables below. Any claim that is paid out reduces the amount available for future claims. Two payout levels apply on occurrence of a dread disease defined below:

- **25% payout - Life Changing Event Level 1**
- **100% payout - Life Changing Event Level 2**

Once your insurer has paid out a claim for a life changing event, they will only consider further claims for life changing events if the subsequent claims are not directly related to or caused by the previous disease(s). Once a claim for a disease has been made, no further claims will be considered for that specific disease, unless the condition has progressed to a Level 2 Life Changing Event – the remaining 75% (seventy-five percent) will then be paid out. Once a cumulative amount of 100% (one hundred percent) of the total sum assured (stated in the policy schedule) has been paid out, no further payouts for this benefit will be considered and cover will cease.

**Survival period:** The lump sum will only be paid if the life assured survives for at least 28 (twenty-eight) days from the date of diagnosis. If the life assured dies during this period, your insurer will not pay any dread disease claim. This survival period applies to all claims, regardless of whether there has been an earlier claim, or not.

**HIV testing:** Your insurer requires a new negative HIV test on the life assured to be submitted, as specified in your policy schedule or amendment schedule. HIV testing may be required within a specified time frame from date of commencement, policy upgrade and/or reinstatement of cover. Should the HIV test result be received after the required date, underwriting may be required to review any benefits on the policy.

**Expiry of cover:** Cover is taken out on a whole-of-life basis and will terminate for the reasons explained under the heading Cancellation on page 9 of this book.
Dread Disease Cover

The different diseases and their definitions and conditions under this policy are as follows:

</table>

### Specific Exclusion

- The Advanced Aids benefit is excluded unless a new negative HIV test on the life assured was required as per the policy schedule.
Dread Disease Cover

Claims examples
1. A client with a sum assured of R400 000 has a minor heart attack. This is a Level 1 life-changing event and he qualifies for a 25% payout and thus receives an amount of R100 000. He later suffers a more severe heart attack, with a resultant ejection fraction of 35% more than 30 days after the event (see page 46). He receives the remaining R300 000.
2. A client with a sum assured of R750 000 has an angioplasty, qualifies for a 25% payout and receives R187 500. Some years later, an oncologist diagnoses the client with stage 2 cancer. The client qualifies for and receives 25% of R562 500 (the remaining sum assured), which totals R140 625. A year later the cancer progresses and the oncologist diagnoses the client with stage 4 cancer. He then qualifies for a 100% payout and receives the remaining R421 875. The dread disease policy ceases with this payment.

Additional benefits
Depending on your policy, one or more of these benefits may be added to your contract. Please refer to your policy schedule for confirmation of benefits that have been included.

• Guaranteed assurability: If applicable to the product chosen, the cover sum assured on the policy may be increased by a percentage of the original sum assured, up to a maximum allowed or up to your insurer’s maximum insurable amount at the time, whichever is lower. This is without the need for any further underwriting, other than providing a new negative HIV test for the life assured. Such an option may only be exercised on every third policy anniversary or after a significant event, as described below:
  • the marriage of the life assured;
  • a child being born to or legally adopted by the life assured;
  • the life assured purchasing a home; and/or
  • the life assured entering into a business or taking an increased interest in an existing business.

If cover is increased after any of the above events, the sum assured will remain the same for a period of three years and further guaranteed assuribility increases will only be allowed after this period, as stated in the policy schedule.

You may only use this benefit if you:
• have not claimed and are not in the process of claiming;
• are not aware of any condition present and have not suffered any event that would entitle you to claim under the policy;
• request the increase within 3 (three) months of the date of the significant event or third policy anniversary; and
• are younger than the maximum entry age for this benefit.
Dread Disease Cover

Your insurer may need further information about the significant events described above when you request the cover increase. Financial underwriting may also be required.

Your insurer will base the premium for the increased cover on current premium rates and conditions applicable at the time of the increase.

- **Premium waiver:** If the life assured suffers a dread disease and is paid a 100% lump sum dread disease benefit, the premiums for pure life and disability cover (if applicable) will not be charged for a period of 5 (five) years. Policy premium collection will re-commence and is payable when the premium waiver period has expired.

**General Exclusions**

No dread disease claim will be paid if the condition of the life assured is caused or accelerated, whether it be directly or indirectly, by:
- radioactivity and nuclear explosions;
- material misrepresentation or non-disclosure of information before the commencement date; and/or
- excessive consumption of alcohol; intentional inhalation of fumes; and intentional and negligent consumption of poisons, drugs, narcotics or medication (unless prescribed by an independent medical practitioner and used according to these instructions).

**Specific Exclusions**

Your insurer will not pay the claim amount if the dread disease the life assured suffers from arises or is accelerated, directly or indirectly, by any one of the events listed in the policy schedule under the Specific Exclusions section.
Your Product

All Woman Cover
All Woman Cover

**Benefit:** This product pays out a percentage of the sum assured (stated in the schedule) if the life assured (policyholder), or up to four children of the life assured, suffers an event according to the criteria described in the tables outlined below. Only one claim will be paid per event. Any claim that is paid out will reduce the amount available for future claims. Once a cumulative amount of 100% of the total sum assured has been paid out, no further payouts under this benefit will be considered and cover will cease. This is also a standalone product.

**Definition of a child:** The life assured's biological child, stepchild or legally adopted child.

- The child must be 18 (eighteen) years or younger and unmarried at the date of diagnosis.
- A maximum of 1 (one) claim per child will be covered.
- A maximum of 4 (four) children will be covered.
- A 6-month (six-month) waiting period will be enforced in respect of children's claims.
- The benefit paid out on child cancer is 50% (fifty percent) of the sum assured or R250 000 (two hundred and fifty thousand rand), whichever is lower.
- Multiple claims are allowed, but all cover under this policy falls away once 100% (hundred percent) of the sum assured, in total, is paid out.

**Expiry of cover:** Cover is on a whole-of-life basis and will expire once 100% (hundred percent) of the total sum assured has been paid out.

**Waiting period:** Any event and/or diagnosis occurring during the waiting period, will not be covered under this policy from the date of commencement or reinstatement effective date (if applicable) of this contract. Please see your schedule for the details of any applicable waiting periods.

**Pre-existing conditions and exclusions:** The life assured will not be covered for any claim arising from any disease, injury or other condition, which, in the opinion of your insurer, is related to a previous disease, injury or other condition for which the life assured has received medical treatment or advice at any time prior to the date of commencement or reinstatement effective date of this policy.

**Claims** should be submitted within 3 (three) years of the birth of a child in the case of claims for conditions relating to congenital abnormalities. The different events covered and their definitions under this policy are as follows:

Pregnancy complications covered are limited to:

- Pregnancy complications requiring the policyholder to:
  - a. spend 48 (forty-eight) hours or more in ICU
  - b. spend 24 (twenty-four) hours in ICU and 3 (three) or more consecutive days in a general hospital ward
  - c. spend more than 5 (five) consecutive days in a general hospital ward.
- Miscarriage due to amniocentesis or chorionic villus sampling
- Foetal death following at least 28 (twenty-eight) weeks of pregnancy as a result of unintended trauma - self-inflicted trauma is not covered
- Abruptio placentae with any 1 (one) of the following:
  - a. maternal hypovolaemic shock
  - b. foetal loss or
  - c. disseminated intravascular coagulopathy
- Eclampsia which has been clinically documented (pre-eclampsia is not covered)
- Hydatidiform mole treated with chemotherapy
- Placenta praevia of Grade 3 (three) or 4 (four) severity
- Placenta accreta which has necessitated a hysterectomy
- Embolism during pregnancy or delivery
- Uterine rupture that has necessitated a hysterectomy
- Third- or fourth-degree vaginal tear that has resulted in a fistula and has undergone surgical repair
- ICU admission for a documented pregnancy- related complication of at least 5 (five) days in duration.

### Specific Exclusions
- Involvement of the skin, joint(s) or any mental and behavioural disorders.
All Woman Cover

Claim examples
1. A policyholder with a R500 000 insured amount is a victim of a violent crime, including rape, and is accidentally infected with HIV. She qualifies for a 40% payout and receives an amount of R200 000. She is later diagnosed with cancer. She qualifies for a 100% payout and receives the remaining R300 000. The All Woman policy ceases with this payment.

2. The child of the policyholder with a R750 000 insured amount is diagnosed with cancer. The policyholder qualifies for and receives 50% of the sum assured or R250 000, whichever is lower. R250 000 was paid reducing the sum assured to R500 000. A few months later, the policyholder is a victim of a violent crime, including rape, and is accidentally infected with HIV. She qualifies for a 40% payout of the original sum assured of R750 000 and thus receives an amount of R300 000. The sum assured on the policy has now reduced to R200 000. A few years later, the client is diagnosed with systemic lupus erythematosus. She qualifies for a 10% payout of the original sum assured of R750 000 and receives R75 000. The All Woman policy will remain active with a sum assured of R125 000.

General exclusions
All Woman claims will not be paid if the condition of the life assured is caused or accelerated, whether directly or indirectly, by:
• radioactivity and nuclear explosions;
• material misrepresentation or non-disclosure of information before commencement date or reinstatement effective date;
• the excessive consumption of alcohol, intentional inhalation of fumes, intentional and negligent consumption of poisons, drugs, narcotics or medication (unless prescribed by an independent medical practitioner and used as described);
• intentional and gross negligent self-inflicted injury; and/or
• elective termination of pregnancy.

Specific exclusions
Your insurer will not pay the claim amount if the dread disease that the life assured suffers from arises or is accelerated, directly or indirectly, by any one of the events listed in the policy schedule under the Specific exclusions.
We take pride in providing you with the freedom to choose high-quality, life insurance options and products that suit your needs, at a premium you can afford.
